TO WHOM IT MAY CONCERN

Hereby the undersigned declares that EUROMED extracts do not contain any substance included in the World Anti-Doping Agency (WADA) Prohibited List 2016, excepting:

- A few customer specific products containing mannitol as carrier (Codes 345246, 345146 and 345056).
- Extracts where ethanol has been used as extraction solvent.

Ethanol (prohibited in a few sports¹) might be present in some products as residual substance of the extraction solvent, with a maximum concentration of 0.5%. According to the document, "*The doping violation threshold is equivalent to a blood alcohol concentration of 0.10 g/L*". This threshold will hardly be reached if the product is taken in normal recommended dosage.

Anna Mula
Scientific Services & Documentation Manager
EUROMED, S.A.

¹ Alcohol (**ethanol**) is prohibited In-Competition only, in the following sports: • Air Sports (FAI) • Automobile (FIA) • Archery (WA) • Powerboating (UIM).
