## Keya™

MODERN SHATAVARI

**Hormone Balance**  
at the Lowest Dose

Human studies show benefits for PCOS and perimenopause:

- Supports ovarian and follicle health in reproductive years.
- Reduces hot flashes and brain fog in perimenopause.
- Supports mood, stress, sleep; promotes skin & hair health.

## BluNADBooster®

**NAD+** Natural Activation  
& Smarter Preservation

New published human study on this natural botanical NAD+ solution shows:

- Activates two NAD+ biosynthesis pathways, promoting NAD+ to healthy levels.
- Uniquely slows NAD+ loss by inhibiting CD38 enzymes.
- It's not just how much NAD+ you make, it's how much you keep.

## digexin®

**The Digestive  
Performance Solution**  
Built for the GLP-1 Era

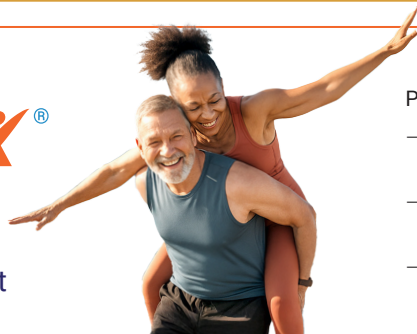

Three clinical studies have been independently verified, supporting compliant, clinically backed claims:

- Restores regularity in 7 days, significantly reducing gas, bloating, and constipation.
- Peristalsis promoter speeds transit time by 4 hours.
- New studies show significantly reduced digestive complaints among actual GLP-1 therapy users as well as prebiotic-like effects.

## TamaFlex®

**5 Days** to Joint Comfort

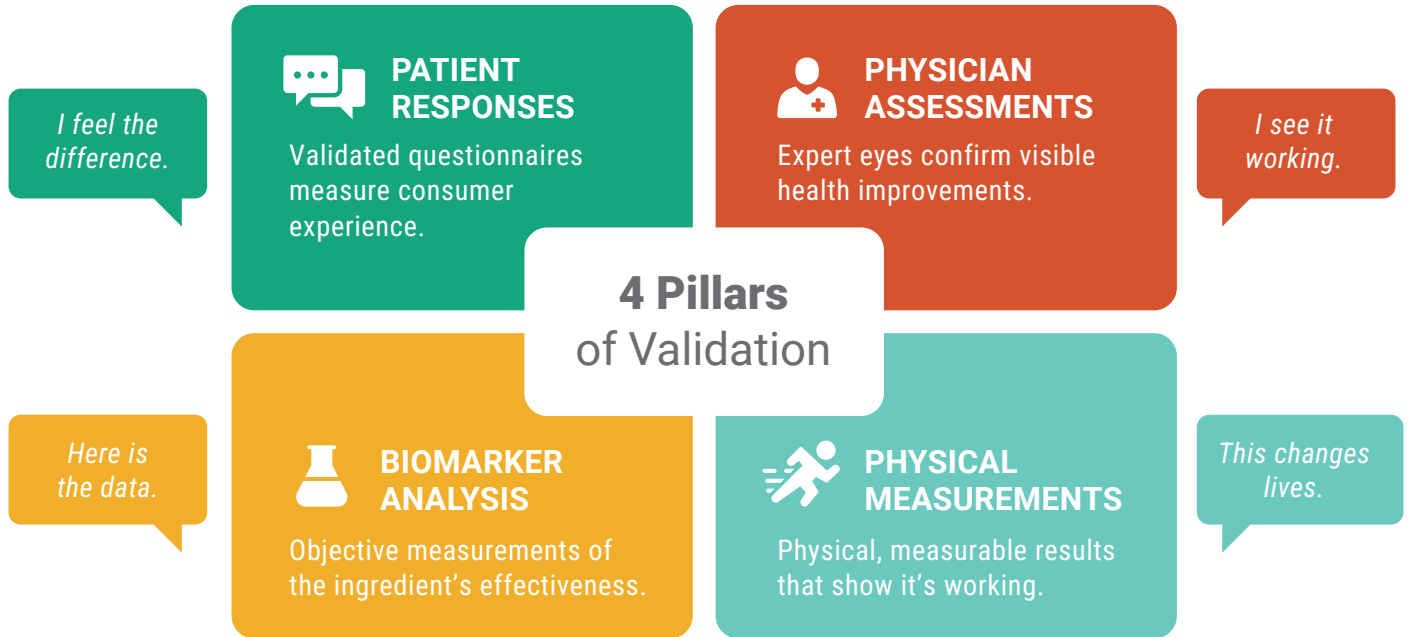

Patented and clinically proven in 3 human studies:

- Modulates COX-2 for fast-acting and 5-LOX for long-lasting healthy inflammation support.
- Comfort, flexibility, lower body strength, mobility and knee range of motion starting in just 5 days.
- "5 Days" to joint comfort is a front-of-pack game-changer.
